USB TRAVELLER SUPPORT MT6212 is an universal travel adapter for electrical sockets compatible with the majority of used standards: UK, U.S. and EU.

The adapter is equipped with the USB connector, so it's perfect as a USB charger for mobile phones, portable media players, navigation and many others.

The biggest advantage is its integrated, compact design, without need to use additional components. After folding, MT6212 becomes small and handy cube which you can easily carry.

LED diode indicator informs about the status of the device.

USB TRAVELLER SUPPORT MT6212 - essential
